

Atomic Design System Manual

Atomic Design System Manual: Pangasinan Heritage Digital Showcase

****Course / Subject:**** Elective 4 Special Topics in IT

****Student:**** Ralph Vince De Venecia

****Methodology:**** Brad Frost's Atomic Design Atoms, Molecules, Organisms, Sections

****Visual Identity:**** Contemporary Coastal Heritage Editorial

****Color Scheme:**** Deep Navy '#182A35', Warm Sand '#F3EBDD', Burnt Clay '#B85C3D', Sea Glass '#6F9C97', Rice White '#FBF8F1', Charcoal '#202322'

1. System Overview & Hierarchy

Brad Frost's Atomic Design methodology establishes a modular component hierarchy that promotes

““

Atoms Tokens, Button, Typography, Icon, ResponsiveImage

Molecules HeritageCard, SearchForm, NavigationItem

Organisms HeaderNavigation, HeritageGrid, Footer

Templates & Sections HomeHero, FeaturedStory, HeritageFeature, ExperienceStri

Pages Home, Destinations Directory, Destination Details, Heritage & Cul

““

2. Atoms

2.1. Design Tokens 'styles/tokens.css'

- ****Usage Context:**** Defines centralized CSS Custom Properties for colors, typography, spacing,
- ****Responsive Logic:**** Adapts '--container-padding' from '1.5rem' on mobile to '2.5rem' on tab
- ****Code Reference:****

““css

:root {

--color-navy: #182A35;

--color-sand: #F3EBDD;

--color-clay: #B85C3D;

--color-seaglass: #6F9C97;

--color-rice-white: #FBF8F1;

--color-charcoal: #202322;

--font-editorial-serif: 'Playfair Display', Georgia, serif;

--font-body-sans: 'Plus Jakarta Sans', Inter, sans-serif;

}

““

2.2. Button Atom 'components/atoms/Button'

- ****Visual Preview:**** Rectangular button with Burnt Clay background 'primary', Navy border 'out
- ****Usage Context:**** Triggers actions or navigates to destination pages throughout the showcase
- ****Responsive Logic:**** Scales font size and padding across 'sm', 'md', 'lg'. Supports 'fullWid
- ****Code Reference:****

““tsx

export const Button: React.FC<ButtonProps> = {

variant = 'primary',

size = 'md',

href,

children,

iconRight,

} => {

const combined = `\${styles.button} \${styles[variant]} \${styles[size]}`;
